RAKIB HASSAN

JUNIOR FULL-STACK DEVELOPER

+60 11-3316 1582 • Kuala Lumpur, Malaysia • rakibhassan215095@gmail.com • GitHub: github.com/rakibcj7 •

Portfolio: www.rakib-hassan.com

PROFESSIONAL SUMMARY

Junior Full-Stack Developer specializing in modern JavaScript and TypeScript ecosystems (React, Next.js, Node.js, Express, PostgreSQL). Demonstrated expertise in engineering responsive web applications, integrating secure RESTful APIs, and implementing robust backend architectures. Driven by clean code principles, performance optimization, and scalable web solutions.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend:	React, Next.js, Tailwind CSS, Responsive Web Design, State Management
Backend & DB:	Node.js, Express.js, RESTful APIs, PostgreSQL, Prisma ORM, MongoDB
Tools & Workflow:	Git, GitHub, VS Code, Postman, Vercel, Docker, Figma, Claude

SELECTED PROJECTS

Rasuah — Public Bribery Reporting Platform

Next.js • TypeScript • Prisma • PostgreSQL • MongoDB • Tailwind CSS

- Architected a privacy-conscious reporting web platform designed for anonymous whistleblowing in Malaysia.
- Engineered secure backend API routes and integrated relational data models using Prisma ORM and PostgreSQL.
- Implemented responsive UI components prioritizing user anonymity, dynamic data fetching, and accessibility.

Business Analytics Dashboard — MERN Stack Application

Node.js • Express.js • MongoDB • React • Tailwind CSS

- Built a dynamic MERN-stack analytics application featuring operational metrics and aggregated business data visualizers.
- Developed modular REST APIs for transactional data pipelines, authentication, and state management.
- Designed an intuitive dashboard UI using Tailwind CSS for streamlined administrative monitoring.

DevStack — Technology Stack Explorer

React • JavaScript • Tailwind CSS

- Created an interactive web application for developers to assemble, curate, and analyze technical stacks.
- Integrated JSON-driven dynamic card rendering, custom state filtering, and toast feedback notifications.
- Optimized frontend component lifecycle and state persistence for smooth interactive workflows.

Responsive Frontend Web Apps — UI/UX Suite

React • JavaScript • CSS3 • Tailwind CSS

- Designed and deployed specialized UI projects including a fitness tracking interface and a customized retail café platform.
- Focused on mobile-first responsiveness, cross-browser compatibility, and smooth UI/UX interaction flows.

EDUCATION & CERTIFICATIONS

Web Development Bootcamp (Batch 14) — Programming Hero — 2026

Higher Secondary Certificate (HSC) — Humanities, Bangladesh — 2021

Secondary School Certificate (SSC) — Bangladesh — 2021
